## BIO AND PERFORMANCE RECORD:

LeonadoSE is an exceptional young stallion, a modern, leggy type with outstanding jumping ability and incredible movement. He is a product of embryo transfer, and his embryo "twin" was approved BWP as well this year, LeoneSE.

Leonado scored 18's for his gaits at the 2010 stallion approvals and the Belgian judges were awestruck by his beautiful elastic movement!

His pedigree offers breeders a well rounded background of dressage (Pikadero), and showjumping (Liostro and Pikadero).

LeonadoSE is out of the premium mare, Piktorial, a retired jumper sportsmare. Piktorial has 6 horses successfully competing and winning in sport at this time.

On the sire side, LeonadoSE is by Liostro (E), an elite stallion who has produced many international sporthorses both in Europe and in the US. The most famous siblings are Mark Watring's Sapphire (who was recently cloned) and Mandy Porter's Lio Calyon.

SE Farm has entered in a partnership with a talented eventer, Alexis Helffrich, originally from France. He has been bringing up the young stallion through the eventing ranks. His dressage scores have been consistently in the low 20's!

In Nov. 2011, the pair won their very first Open Preliminary division at the Galway Downs International 3\*\*\* horse trials. We have high hopes for the future of both Alexis and LeonadoSE as we believe he has the athleticism, movement and charisma to excel in the highest levels of eventing.

Leonado can be bred for jumpers, dressage, hunters, or eventing.
