CITY, STATE, ZIP CODE: Contact Owner
TELEPHONE NUMBER: 805-551-6336
FAX NUMBER: N/A
EMAIL: rsullivanse@yahoo.com
WEBSITE: www.sefarm.com
OWNER OF RECORD: Rose Sullivan SE Farm

BIO AND PERFORMANCE RECORD:

Leone SE is the identical twin to approved stallion Leonado SE. Genetically they are the same, except Leone SE is a very short backed, compactly built stallion, with an incredible neck set. He is 16.1 hh, as compared to his much larger twin. They were born just days apart to 2 different mares. Coupled with incredible beauty, conformation, scope, and movement, he possess the complete package for breeding.

Leone SE, along with his brother are the last two approved sons of the legendary Liostro (E). Liostro is the son of Ladykiller, a famous TB foundation sire of the Holsteiners who has produced many international sporthorses both in Europe and the US. (for dressage and jumping) The most famous here is Sapphire, owned and recently successfully cloned by Mark Watring, a successful international eventer and showjumper.

Leone SE dam line has so far produced 6 phenomenal young sporthorses currently competing and winning in sport. He is out of Piktorial, a premium Pikadero daughter (dually approved by AHHA and BWP) who is only 10 years old. Most of her offspring have been produced through embryo transfer, as she herself was a showjumper. Pikadero was a dressage horse before he became an international showjumper winning many Grandprix's and World Cups. (owned by Mary Shirley) He colicked and died at a young age, making his offspring highly coveted.

During stallion approvals, Leone's performance in the jump chute was incredible! He was clearing 4 foot oxers by 2 feet with ease. His technique is spectacular and consistent. He jumps with the scope of a jumper and the technique of a hunter!

Leone SE can be bred for hunter derby's, dressage, showjumping and eventing.
