BIO AND PERFORMANCE RECORD:

This perfectly proportioned stallion is the only fully licensed BWP stallion in the United States sired by the 2004 Olympic bronze medalist, Clinton. Vision lives up to his famous Grand Prix heritage, exhibiting boldness, intelligence and a great willingness to perform. He possesses Clinton's well-noted superior conformation, excellent movement, and superb jump. Exceptional in his style, ability, and good-natured disposition, he has drawn admiration and compliments from many renowned trainers.

Vision began his show career in Ireland where he qualified for Dublin Horseshow as a four year old. After his arrival in the United States, he placed consistently at top shows in the Young Jumper division. He went on to excel in the jumper ring with several Champion and Reserve Champion titles at Level 5 and 6. He placed in nearly every Level 7 class he competed in and completed the 2008 summer placing at Level 8. With this success Vision fulfilled his stallion performance requirements for the BWP and earned his permanent license. Sadly, his very promising show career met a premature end due to injury.

Vision's offspring ranked as premium foals in both the BWP and RHPSI testing, replicating his extraordinary conformation and disposition. The oldest foals from 2004 began their show careers during the summer of 2008 exhibiting their sires natural ability and boldness. Showing in her fourth show, Perfect Vision, bred by Swept Away Farm, was Reserve Champion in the Baby Green Hunters at Vermont Summer Festival. Galileo, full brother to Perfect Vision, was tied for third at the 2008 BWP Keuring in the 2 y/o Futurity. We look forward to monitoring the progress of his offspring on the show circuit and as more are started under saddle.
